Fig. 6

FieldSaver: Review				11:22
Hood, Drew		42Y	m	2001-1010-01
Chief Complaint: Chief Complaint: chest pain, shortness of breath, diabetes.				
History: Chest pain described as fullness, pressure and tightness and rated as 8/10. Pain pattern noted to be worsening and exertional and lasting for 30 minutes. Chest pain located at substernal area and radiates to the neck and left arm. Symptoms like prior angina. Chest pain improved by NTG sl, oxygen and rest and chest pain worse with exertion. Patient has shortness of breath with exertion.
